

PROFESSIONAL SUMMARY

Information Technology graduate with experience in Full-Stack Web Development, Database Management, and Software Development. Skilled in developing web and desktop applications, designing databases, and leveraging AI-assisted development tools to build efficient and scalable solutions. Experienced in inventory management, document tracking, and automation systems through academic projects and internship work.

TECHNICAL SKILLS

- Programming Languages: HTML, CSS, JavaScript, Python, Java, C++, PHP, SQL
- Frameworks & Libraries: Flask, Flask-SQLAlchemy, Tailwind CSS, Pandas, Android SDK, Werkzeug
- Databases: MySQL, SQLite, Microsoft SQL Server (MSSQL)
- Security & Cryptography: Authentication & Authorization, Role-Based Access Control (RBAC), Data Encryption, Password Hashing, Digital Signatures, Cryptography (Python)
- Document Processing: PDF Generation & Manipulation, Digital PDF Signing
- Cloud & APIs: RESTful API Development, Secure File Storage Systems, File Upload/Download Handling via HTTP APIs
- Tools & Platforms: Git, GitHub, Android Studio, Visual Studio, NetBeans, XAMPP, Figma
- Core Development: Full-Stack Web Development, Database Design, Software Testing & Debugging
- AI-Assisted Development: Prompt Engineering, AI-assisted coding, AI workflow integration
- Soft Skills: Problem-Solving, Communication, Teamwork, Adaptability, Continuous Learning, Attention to Detail

PROJECTS

AI Chatbot (Sept 2023)

- Developed an Android-based AI chatbot application integrated with the OpenAI GPT-4 API to provide real-time conversational assistance.

KIOSK Machine Project (Dec 2024)

- Developed a self-service food ordering kiosk system using Java Swing and MySQL to streamline menu browsing, order processing, and transaction management.

AI-Driven Web-Based Transaction Processing System for ISO Documentation with Automated Content Evaluation and Redundancy Detection in Letran Calamba (Dec 2025)

- Developed a web-based ISO 21001:2025 documentation system that automates document workflows through role-based access control, secure e-signatures, and AI-assisted content evaluation and redundancy detection.

PRS Memo Tracking System (March 2026)

- Developed a centralized document tracking system for the PNP Maritime Group that streamlined memo distribution, status monitoring, and record management, improving information accuracy and workflow efficiency.

Maritime Vessel Inventory System (April 2026)

- Developed a comprehensive inventory and maintenance management system for the PNP Maritime Group to monitor vessel parts, equipment, and preventive maintenance activities nationwide, improving asset tracking, maintenance scheduling, and operational efficiency.

EXPERIENCE

Philippine National Police - Maritime Group (Feb – May 2026)

Camp Crame, Quezon City

IT Intern/Full Stack Web Developer

- Contributed to the development of the Maritime Vessel Inventory System (MVIS) and PRS Memo Tracking System.
- Assisted in full-stack web development, including database integration and system functionality improvements.
- Collaborated with team members to support system testing, debugging, and deployment.

Accenture Academy (Feb – May 2026)

Trainee

- Completed an intensive Microsoft-focused training program in AI-assisted software development.
- Gained practical knowledge in GitHub Copilot, SQL, C#, ASP.NET Core, Azure Cloud, and DevOps fundamentals.
- Applied software development best practices in technical exercises and hands-on activities.

EDUCATION

Colegio de San Juan de Letran – Calamba

Calamba, Laguna

Bachelor of Science in Information Technology (2022-2026)

CERTIFICATIONS

- Microsoft Office Specialist: Excel – Certiport (Jan 2023)
 - IT Specialist: Databases – Certiport (Jan 2024)
 - IT Specialist: HTML5 App Development – Certiport (May 2024)
 - IT Specialist: Java – Certiport (Jan 2025)
 - IT Specialist: Device Configuration & Management – Certiport (Jan 2026)
- Introduction to Data Science – Cisco (June 2026)
 - Data Science Essentials with Python – Cisco (June 2026)
 - Data Analytics Essentials – Cisco (June 2026)
 - Python Essentials I – Cisco (June 2026)
 - Python Essentials II – Cisco (June 2026)
